Skills ─────────

Strongest Areas - Java Development, Data Structures, Web Development, App Development

Languages - Java, C++, JavaScript, Dart, Python

Frameworks/Tools - Spring, Angular, MySQL, Flutter

Extra Courses Undertaken ─

- Java Programming Masterclass for Software Developers by Tim Buchalka (Udemy)
- AWS Fundamentals: Going Cloud-Native (Coursera)

Education

2014 - 2019,	**B.E, Computer Engineering**	VIT, Mumbai
2012 - 2014,	**Diploma, Computer Engineering**	GPT, Thane
2012,	**Class 12, HSC Science**	Pet Oxford Jr. Collage, Ulhasnagar, Thane
2010,	**Class 10, SSC**	Shantigram Vidya Mandir, Ulhasnagar, Thane

Projects

Restaurant Billing Management System

- Created a Billing Management System for a newly opened restaurant, Using this software we were also able to keep track of inventories generating sales reports, and printing bills in a predefined format. In this restaurant, I was working as a restaurant supervisor while pursuing my engineering degree. The owner was aware that I'm from a computer background so he asks me to build one.
Tools and Technologies: Java, MySQL

Smart Traffic Management System

- IoT Project to manage heavy traffic queues at signal using an IR sensor. This was our final year project in Engineering, the project was created by me and my two friends, we have created this project to provide a solution for a problem of heavy traffic jams at signal due to improper management, in this project we have used IR sensors to get the length of traffic queue and set signal timing according to the traffic length.
Tools and Technologies: Aurdino, C, IR Sensor

Website for Farmers

- A website for farmers was created as a final year diploma project, where farmers can get farming-related information district wise easily in multiple languages. Tools and Technologies: ASP.Net

Quiz Competition Website

- A quiz competition website developed using PHP and MySQL as a database.

Certifications

- Certificate in Web Component Development using Java Technologies
- Coursera Certificate in AWS Fundamentals: Going Cloud-Native
- Java (Basic) Certificate By Hacker rank, also got 5 Star Badge
- Professional Email Writing Course Certificate By Twenty19
- Participated in one day workshop on Big-Data & Hadoop, VIT Mumbai
- Participated at the onsite round in C Programming & FOSS-Python Contest, Mumbai University

Experience

Jan 2019 - **IT – Dialer Executive**   OnePointOne Solutions, Navi Mumbai

Present:

- Working with the internal development team for new changes in CRM.
- Managing data in the SQL database, coordinating with the operation.
- Started as CRE, promoted to IT in 6 months through IJP.
